

STEEL EXTERNAL LOUVRE G-801

Installation dimensions

GA801 + WR001

GB801

All dimensions in mm.

Application

The external louvre, type G-801, is designed for wall application for supply and exhaust of large air volumes in heating, ventilating or air-conditioning installations. The design and the mounting of the horizontal blades ensure a weatherproof louvre.

Technical information

Characteristics

- horizontal blades under 45°
- distance blades = 80 mm
- can be used as supply, exhaust and transfer grille
- equipped with a drip cill and a birdscreen in galvanised steel wire-netting or stainless steel (12,5 x 12,5 x \varnothing 0,8 mm) or with an insectscreen in galvanised steel or stainless steel (1,4 x 1,4 x \varnothing 0,24) at the back
- weatherproof
- available in multiples of 1 mm in length and 10 mm in height
min L=200 mm, max L=2300 mm
min H=300 mm, max H=2300 mm
(LxH)>2300 x 2300 mm: only available in several parts

Construction

- margin and blades are made out of galvanised sheet steel
- on request, painted in RAL colour

Specifications description

Example :

Steel external louvre for large air volumes with fixed horizontal blades in galvanised sheet steel. Weatherproof, equipped with a bottom drip cill and a galvanised steel birdscreen at the back.

Type : GB801

nom. dim. (LxH) ... x ... mm

Accessories

- **WR001**: mounting frame out of steel profile (30 x 30 x 4 mm), delivered with mounting taps

Fixing

- the louvres are fixed to the wall by screws
- the GA series has factory drilled screw holes in the margin
- for fixing with a mounting frame (WR001), both frame and louvre have to be drilled on site

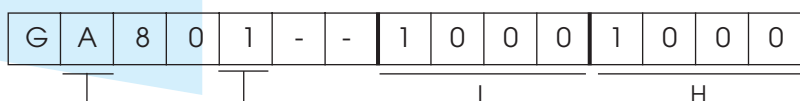

Possible deliveries

- **GA800** : grille without birdscreen but with screw holes in the margin
- **GB800** : grille without birdscreen and without screw holes in the margin
- **GA801** : grille with galvanised steel birdscreen and screw holes in the margin
- **GB801** : grille with galvanised steel birdscreen and without screw holes in the margin
- **GA802** : grille with galvanised steel insectscreen and screw holes in the margin
- **GB802** : grille with galvanised steel insectscreen and without screw holes in the margin
- **GA803** : grille with stainless steel birdscreen and with screw holes in the margin
- **GB803** : grille with stainless steel birdscreen and without screw holes in the margin
- **GA804** : grille with stainless steel insectscreen and with screw holes in the margin
- **GB804** : grille with stainless steel insectscreen and without screw holes in the margin

How to order

GA801, dimension 1000 x 1000 mm with mounting frame WR001.

a) Louvre

- 0: grille without birdscreen
- 1: grille with galvanised steel birdscreen
- 2: grille with galvanised steel insectscreen
- 3: grille with stainless steel birdscreen
- 4: grille with stainless steel insectscreen

- A : margin with screw holes
- B : margin without screw holes

b) Mounting frame
