

# Auxiliary BE – Flash light

## KEY FEATURES

- *Other colours and voltages available*
- *Additional socket for IP65.*

## - Flash light

### General:

BE- is a range of electronic flash lights with low power consumption and high flash energy. The flash light has small dimensions and is easy to install.

It can be used both indoor and outdoor.

### Note!

Siren will not work if plus and minus is mixed up.

### Technical Data:

Material:	PC
Power supply:	24 VDC / 230VAC
Power range:	9 - 60 VDC / 210-240VAC
Power consumption:	30-290 mA
Flash energy:	0,5 - 2,0 Joule
Flash energy:	60/min
Enclosure:	IP43 / (IP65 230V)
With socket: (SOCK-H-R)	IP65 (optional)
Dimensions: Diameter x H:	93x75mm (103mm, with SOCK-H-R) 93x103mm (230V)
Ambient temperature:	-10°C .. +70°C
Colours: (in stock)	amber, red
(Optional)	white, blue, green
Weight:	269 gram

# Product summary

Order code	Model	Description		
	<b>BE</b>	IP43 (IP65 with SOCK-H-R, option) Colours: Red or amber (for other colours please contact us).		
40-4021	BE-A-24VDC	Amber, 9 – 60VDC		
40-4022	BE-R-24VDC	Red, 9 – 60VDC		
40-4031	BE-A-230VAC	Amber		
40-4032	BE-R-230VAC	Red		
40-415	SOCK-H-R	IP65 socket, red		

**Standard:**

Power: 24VDC  
 Voltage range: 9 - 60VDC  
 Power consumption: 245 - 40mA  
 Flash energy: 1,0 Joule

**High voltage:**

Power: 230VAC +/- 10%  
 Power consumption: <30mA  
 Flash energy: 2,0 Joule
