

Duct sensor with housing

Duct sensor for air temperature measurement in ventilation ducts. Intended to be used together with RU 6X or RU 9X.

| Technical data | |
|-------------------|-------------------------|
| Temperature range | -20...+50°C |
| Insertion length | 60...405 mm, adjustable |
| Insert diameter | 8 mm |
| Protection class | IP65 |

| Description | Sensor element | Type |
|-------------|----------------|-----------|
| Duct sensor | R+S | TG-KH/MKF |
